The effectiveness of the functional movement screen in determining injury risk in tactical occupations

Roger KOLLOCK, Medeline LYONS, Gabe SANDERS and Davis HALE

The fifth sentence in the abstract should read as follows. The author would like to apologize for this error.

“We searched MEDLINE, Military & Government Collection (EBSCO), National Institute for Occupational Safety and Health Technical Information Center and PubMed databases for articles published between January 2000 and October 2017.”

*An important error made by the authors.
