### Volume 57, 2019

### No. 1

**SPECIAL ISSUE:**

**TOWARD THE HARMONIZATION OF WORK WITH TREATMENT AND PREVENTION OF DISEASE**

**Editorial**

Harmonizing work with diseases treatment and prevention

Go MUTO, Kazuhito YOKOYAMA, Motoki ENDO, Yoshihisa FUJINO

---

**Review Article**

Harmonizing work with the treatment and prevention of sleep disordered breathing in commercial motor vehicle drivers: implications for health and productivity management

Hiroo WADA, Manami KIMURA, Ryutaro SHIRAHAMA, Tomokazu TAJIMA, Koutatsu MARUAYAMA, Motoki ENDO, Ai IKEDA and Takeshi TANIGAWA

---

**Original Articles**

Information exchange using a prescribed form and involvement of occupational health nurses promotes occupational physicians to collaborate with attending physicians for supporting workers with illness in Japan

Go MUTO, Rina ISHII-NAKAMURA, Kazuhito YOKOYAMA, Fumihiko KITAMURA, Yuki OMORI, Masahiko SAITO and Motoki ENDO

---

Durations of first and second periods of depression-induced sick leave among Japanese employees: the Japan sickness absence and return to work (J-SAR) study

Motoki ENDO, Yasuo HARUYAMA, Kiyomi MITSUI, Go MUTO, Chihiro NISHIURA, Keisuke KUWAHARA, Hiroo WADA and Takashi TANIGAWA

---

What causes patients with breast cancer to change employment?: evidence from the health insurance data in a medical facility

Ryoko TAGUCHI, Yukako OKUDE and Mitsue SAITO

---

A cooperative support model for cancer therapy and employment balance: from focus-group interviews of health and business professionals

Miho TAKAHASHI, Chika UETAKE, Naoko NAKAYAMA, Akiko EURA, Natsumi YAMAGUCHI, Yui KAMEDA, Go MUTO, Motoki ENDO, Kayo KAWAMATA, Tomoko FUJII, Hiroyuki OKA and Ko MATSUDAIRA

---

Improving the job-retention strategies in multiple sclerosis workers: the role of occupational physicians

Benedetta PERSECHINO, Luca FONTANA, Giuliana BURESTI, Grazia FORTUNA, Antonio VALENTI and Sergio IAVICOLI

---

Characteristics of self-reported daily life note (LN) users in return-to-work judgment for workers on sick leave due to mental health conditions, and usefulness of the tool

Akira KUSUMOTO, Shigeyuki KAJIKI, Yoshihisa FUJINO, Katsuuyuki NAMBA, Tomohisa NAGATA, Masako NAGATA, Akizumi TSUTSUMI and Koji MORI
Relationship between treatment and period of absence among employees on sick leave due to mental disease

Keiji Muramatsu, Yoshihisa Fujino, Tatsuhiko Kubo, Makoto Otani and Shinya Matsuda

Case Report
Toward the harmonization of work with treatment and prevention for patients with chronic respiratory failure

Hiroo Wada, Saki Fukumoto, Kengo Tamamura, Go Muto, Jun Ueki and Takeshi Tanigawa

Field Report
Promoting and inhibiting factors for the use of validated dietary assessment questionnaires in health check-up counseling: from occupational health nurses and dietitians’ perspective

Ryoko Katagiri, Go Muto and Satoshi Sasaki

REGULAR ISSUE
Original Articles
Unique associations of the Job Demand-Control-Support model subscales with leisure-time physical activity and dietary energy intake

Christopher G. Bean, Helen R. Winefield, Amanda D. Hutchinson, Charli Sargent and Zumin Shi

Cardiac autonomic activity during simulated shift work

Elena Skornyakov, Shobhan Gaddameedhi, Gemma M. Paech, Amy R. Sparrow, Brieann C. Satterfield, Nita L. Shattuck, Matthew E. Layton, Ilia Karatsoreos and Hans P. A. Van Dongen

No. 2
SPECIAL ISSUE:
SHIFTWORK HEALTH AND SAFETY: RISKS AND INTERVENTIONS—ICOH
SCIENTIFIC COMMITTEE ON SHIFTWORK AND WORKING TIME/WORKING TIME
SOCIETY CONSENSUS STATEMENT
Foreword

Stephen Popkin and Frida Marina Fischer

Editorial
International consensus statements on non-standard working time arrangements and occupational health and safety

Imelda S. Wong, Drew Dawson and Hans P.A. Van Dongen

Review Articles
Working Time Society consensus statements: Evidence-based effects of shift work on physical and mental health

Claudia R.C. Moreno, Elaine C. Marqueze, Charli Sargent, Kenneth P. Wright Jr, Sally A. Ferguson and Philip Tucker
Working Time Society consensus statements: Circadian time structure impacts vulnerability to xenobiotics—relevance to industrial toxicology and nonstandard work schedules
  Michael H. SMOLENSKY, Alain E. REINBERG and Frida Marina FISCHER..................................................158

Working Time Society consensus statements: Psychosocial stressors relevant to the health and wellbeing of night and shift workers
  Frida Marina FISCHER, Aline SILVA-COSTA, Rosane Harter GRIEP,
  Michael H. SMOLENSKY, Philip BOHLE and Lucia ROTENBERG .................................................................175

Working Time Society consensus statements: Evidence-based effects of shift work and non-standard working hours on workers, family and community
  Anna ARLINGHAUS, Philip BOHLE, Irena ISKRA-GOLEC, Nicole JANSEN, Sarah JAY and
  Lucia ROTENBERG.................................................................................................................................................184

Working Time Society consensus statements: Individual differences in shift work tolerance and recommendations for research and practice
  Jennifer RITONJA, Kristan J. ARONSON, Raymond W. MATTHEWS, Diane B. BOIVIN and
  Thomas KANTERMANN.........................................................................................................................................201

Working Time Society consensus statements: Evidence based interventions using light to improve circadian adaptation to working hours
  Arne LOWDEN, Gülcin ÖZTÜRK, Amy REYNOLDS and Björn BJORVATN .................................................................213

Working Time Society consensus statements: A multi-level approach to managing occupational sleep-related fatigue
  Imelda S. WONG, Stephen POPKIN and Simon FOLKARD..................................................................................228

Working Time Society consensus statements: Regulatory approaches to reduce risks associated with shift work—a global comparison
  Johannes GÄRTNER, Roger R. ROSA, Greg ROACH, Tomohide KUBO and Masaya TAKAHASHI............245

Working Time Society consensus statements: Prescriptive rule sets and risk management-based approaches for the management of fatigue-related risk in working time arrangements
  Kimberly A. HONN, Hans P.A. VAN DONGEN and Drew DAWSON...............................................................264

No. 3

Editorial
Importance of hazard identification in risk management
  Siok Lin GAN...........................................................................................................................................................281

Review Articles
Metabolic energy cost of workers in agriculture, construction, manufacturing, tourism, and transportation industries
  Konstantina P. POULIANITI, George HAVENITH and Andreas D. FLOURIS ......................................................283

Design considerations for low-level risk personal protective clothing: a review
  Christopher WATSON, Olga TROYNIKOV and Helen LINGARD........................................................................306

Original Articles
Reliability and validity of the Japanese version of the Feedback Environment Scale (FES-J) for workers
  Hiroko MOMOTANI and Yasumasa OTSKUKA........................................................................................................326
Effects of occupation on intracerebral hemorrhage-related deaths in Inner Mongolia
Liqun Gao, Maolin Du, Jiayi Li, Nengjun Zhao, Ying Yang, Chao Dong, Xiao ling Sun, Baofeng Chi, Qingxia Wang, Wenting Chen, Chunfang Tian, Nan Zhang, Leihui Li, Liwei Niu, Huiqiu Zheng, Han Bao, Yan Liu and Juan Sun ........................................342

Work-to-family conflict rather than family-to-work conflict is more strongly associated with sleep disorders in Upper Egypt
Ehab Salah EsHak ................................................................................................................................................351

Evaluation of a proposed chair with an arm support for wiring terminal blocks on a vertical plane
Hsieh-Ching Chen, Yung-Ping Liu, Wei-Hsien Hong, You-Chuan Lin and Chi-Yuang Yu ........................................359

Frequency of firefighters’ heat-related illness and its association with removing personal protective equipment and working hours
Siyeon Kim, Do-Hee Kim, Hyo-Hyun Lee and Joo-Young Lee ........................................................................370

Identifying musculoskeletal issues and associated risk factors among clay brick kiln workers
Manoj Kumar Sain and Makkhan Meena .................................................................................................381

Short Communication
Evaluation of personal exposure of workers to indium concentrations in total dust and its respirable fraction at three Japanese indium plants
Ichiro Higashikubo, Heihachiro Arito, Yoko Eitaki, Kenji Ando, Akihiro Araki, Hidesuke Shimizu and Haruhiko Sakurai .................................................................392

Does dispositional optimism moderate the relationship between role conflict and risk of disability retirement?
Line Krane, Stein KnardaHL and Morten Birkeland Nielsen ......................................................................398

No. 4

Editorial
Health effects of Radiofrequency Electromagnetic Fields (RF EMF)
Alicja Bortkiewicz .........................................................................................................................................403

Review Articles
The effectiveness of the functional movement screen in determining injury risk in tactical occupations
Roger O. Kollock, Madeline Lyons, Gabe Sanders and Davis Hale ..................................................................406

The factors influencing the eating behaviour of shiftworkers: what, when, where and why
Charlotte C. Gupta, Alison M. Coates, Jill Dorian and Siobhan Banks .............................................................419

How do we assess musicians’ musculoskeletal symptoms?: a review of outcomes and tools used
Jessica Stanhope, Dino Pisaniello, Rebecca Tooher and Philip Weinstein .......................................................454
Original Articles

Comparison of the International Classification of High-resolution Computed Tomography for occupational and environmental respiratory diseases with the International Labor Organization International Classification of Radiographs of Pneumoconiosis

Melahat Uzel ŞENER, Ceprail ŞİMŞEK, Şeref ÖZKARA, Hale EVRAN, İlke BURSALI and Atila GÖKÇEK

Assessment of risk factors for non-specific chronic disabling low back pain in Japanese workers—findings from the CUPID (Cultural and Psychosocial Influences on Disability) study

Ko MATSUDAIRA, Masaya TAKAHASHI, Mika KAWAGUCHI, Ayumi HAMAGUCHI, Yuri HAGA and Tadashi KOGA

Effects of light intervention on alertness and mental performance during the post-lunch dip: a multi-measure study

Taleb ASKARIPOOR, Majid MOTAMEDZADE, Rostam GOLMOHAMMADI, Maryam FARHADIAN, Mohammad BABAMIRI and Mehdi SAMAVATI

Biological monitoring of occupational ethylbenzene exposure by means of urinalysis for un-metabolized ethylbenzene

Toshio KAWAI, Haruhiko SAKurai and Masayuki IKEDA

Influence of workplace environment, working conditions and health status of taxi drivers on vehicle collisions or near-miss events

Mineko Baba, Genta MIYAMA, Daisuke SUGIYAMA and Masahito HITOSUGI

Associations of occupation, employment type and company size with actions related to health examinations among Japanese employees

Rumi SEKO, Miyuki KAWADO, Sayana SAITO, Takuma SHIBUYA, Miho MIYAMOTO, Hiroya YAMADA, Hiroshige TANIWAKI and Shuji HASHIMOTO

Short Communication

Timing of Australian flight attendant food and beverage while crewing: a preliminary investigation

Sally Lee PERRIN, Jillian DORRIAN, Charlotte GUPTA, Stephanie CENTOFANTI, Alison COATES, Lyla MARX, Karyn BEYNE and Siobhan BANKS

No. 5

Editorial

From “shift work that involves circadian disruption” to “night shift work”

Masaya TAKAHASHI and Shigeki KODA

Review Article

Working against the biological clock: a review for the Occupational Physician

Alfredo COPERTARO and Massimo BRACCI

Original Articles

Role of metallothionein-like cadmium-binding protein (MTLCdBP) in the protective mechanism against cadmium toxicity in the testis

Hisayoshi OHTA, Yonggang QI, Kenichi OHBA, Tatsushi TOYOOKA and Rui-Sheng WANG
Characteristics of anxiety and the factors associated with presence or absence of each anxiety among radiation decontamination workers in Fukushima
  Takeyasu KAKAMU, Tomoo HIDAKA, Tomohiro KUMAGAI, Takanobu JINNOUCHI, Sei SATO, Yusuke MASUIISHI, Shota ENDO, Shinichi NAKANO, Kikuo KOYAMA and Tetsuhito FUKUSHIMA

Effectiveness of lumbar supports in low back functionality and disability in assembly-line workers
  Ana Vanessa BATALLER-CERVERO, Juan RABAL-PELAY, Luis Enrique ROCHE-SERUENDO, Belén LACÁRCEL-TEJERO, Andrés ALCÁZAR-CREVILLÉN, Jose Antonio VILLALBA-RUETE and Cristina CIMARRAS-OTAL

Factors associated with sleep quality of Thai intercity bus drivers
  Jindarat CHAIARD, Jirawan DEELUEA, Benjamas SUKSAIT and Wanpen SONGKHAM

Changes in thermal comfort, core temperature, and body weight during simulated parcel home-delivery in summer and winter
  Ami NAKAYAMA, Toshihito MITSUI, Tomonori NAKATA, Hiroyuki MABUCHI, Koichi KAWABATA, Hiroki YOSHIMATSU, Tomoyuki ITO, Kazuhiko MATSUNAGA, Masahiro KOSUGE, Yoshi-ichiro KAMIJO, and Fumihiro TAJIMA

Short Communications
  Accuracy of metabolic rate estimates from heart rate under heat stress—an empirical validation study concerning ISO 8996
  Peter BRÖDE and Bernhard KAMPMANN

Assessing the prevalence of hepatitis B virus infection among health care workers in a referral hospital in Kisantu, Congo DR: a pilot study
  Masaka Blandine LUNGOSI, Basilua andre MUZEMBO, Nlombi Charles MBENDI, Natuhoyla Aliocha NKODILA, Nlau Roger NGATU, Tomoko SUZUKI, Koji WADA, Nsukini Sebastien MBENDI and Ikeda SHUNYA

Field Reports
  Risk factors for occupational accidents in agricultural enterprises in Japan
  Goh ICHIHARA, Takehisa MATSUKAWA, Fumihiro KITAMURA and Kazuhito YOKOYAMA

SOS—Appreciation overboard! Illegitimacy and psychologists’ job satisfaction
  Maria Undine KOTTWITZ, Isabel Barbara PFISTER, Achim ELFERING, Steffen Erik SCHUMMER, Ivana IGIC and Kathleen OTTO

No. 6

Editorial
  Informal employment as a frontier of occupational safety and health research
  Kaori FUJISHIRO
Review Articles
A systematic review of the current evidence regarding interventions for anxiety, PTSD, sleepiness and fatigue in the law enforcement workplace
Ty LEES, Jaymen L ELLIOTT, Simon GUNNING, Phillip J NEWTON, Tapan RAI and Sara LAL ........................................................................................................................................655
Nanomaterials as a new opportunity for protecting workers from biological risk
Antonella MANSI, Fabio BOCCUNI and Sergio IAVICOLI ........................................................................................................................................668

Original Articles
Little things matter: a daily diary study of the within-person relationship between workplace incivility and work-related rumination
Tim VAHLE-HINZ....................................................................................................................................................676
Sleep for heart health: investigating the relationship between work day sleep, days off sleep, and cardiovascular risk in Australian train drivers
Janine CHAPMAN, Anjum NAWEED, Carlene WILSON and Jillian DORRIAN...............................................................691
Association between unemployment and insomnia-related symptoms based on the Comprehensive Survey of Living Conditions: a large cross-sectional Japanese population survey
Mitsuya MAEDA, Ronald FILOMENO, Yumi KAWATA, Tomoyo SATO, Koutatsu MARUYAMA, Hiroo WADA, Ai IKEDA, Hiroyasu ISO and Takeshi TANIGAWA.................................................................................................................................................701
A free software to predict heat strain according to the ISO 7933:2018
Leonidas G. IOANNOU, Lydia TSOUTSOUBI, Konstantinos MANTZIOS and Andreas D. FLOURIS...............................................................................................................................................711
Repeated measures study of the association between musculoskeletal symptoms and mental health in subway workers
Yun-Sik CHO, Jae-Bum PARK, Soojeong KIM and Kyungjong LEE ..................................................................................721
Relationship between job satisfaction and sleep quality of female shift-working nurses: using shift type as moderator variable
Wen-Pei CHAN and Yu-Pei CHANG..........................................................................................................................732

Short Communication
Leukocyte telomere length is not affected by long-term occupational exposure to nano metal oxides
Jaroslav A. HUBACEK, Daniela PELCLOVA, Dana DLOUHA, Pavel MIKUSKA, Stepanka DVORACKOVA, Stepanka VLCKOVA, Zdenka FENCLOVA, Jakub ONDRACEK, Martin KOSTEJN, Jaroslav SCHWARZ, Alex POPOV, Kamil KRUMAL, Vera LANSKA, Pavel COUFALIK, Sergej ZAKHAROV and Vladimir ZDIMAL ....................................................................................................................................................741

Research Strategy
Burnout syndrome in Europe: towards a harmonized approach in occupational health practice and research
Irina GUSEVA CANU, Olivia MESOT, Christina GYÖRKÖS, Zakia MEDIOUNI, Ingrid Sivesind MEHLUM and Merete Drevvatne BUGGE.........................................................................................................................745
