

## IWISH2016 Presentation List

### **Keynote Lecture (Special Lecture)**

- Jeong-Hun Won (CNBU) : "Recent trend in Korea construction safety system focused on enforcement of construction workplace related law"
- Tetsuya Sasaki (JNIOOSH) : "Occupational safety and health research in the society of decreasing birth rate and aging population"

### **Research Presentation**

- Hiroki Takahashi (JNIOOSH) : "Experimental study on usage of protective equipment for fall prevention from roof"
- Naroo Lee, Chungsik Yoon (OSHRI) : "Research for preventing health from carbon nanotubes at KOSHA"
- Yoshihiko Sato (JNIOOSH) : "Application of a differential-type adiabatic calorimeter for evaluation of thermal runaway chemical reaction"
- Hyun Wook Yeo (OSHRI) : "The industrial accident resulted from the failure of bolt"
- Dinesh Myilsamy, Chang Bo Oh (PKNU) : "Numerical approach of the backdraft dynamics for the building fire safety"
- Mohsen Vigeh, Katsumi Ohtani (JNIOOSH), Kazuhito Yokoyama (JU) : "A necessity for reappraisal of 'acceptable' level of blood lead for female workers"
- Hyunhee Park (OSHRI) : "Hazards exposure assessment among construction workers"
- Su-Young Son, Ken Tokizawa (JNIOOSH) : "Body balance performance is affected by workload and heat exposure"
- Serdar Korkmaz, Daljae Park (SNUT) : "Necessity and benefits of communicating risk with passengers at transportation vehicles"
